**Subject:** Work at home request for Friday, 5/31 and Monday, 6/3

Hello Barbara,

This is a request to work from home for Friday, 5/31/2019 and Monday, 6/3/2019. Below is a list of proposed work at home activities:

- Follow-up action items based on discussion with POLA on 5/30/2019. Work on resolution of some of the main issues including with accessibility of PCB contamination, contaminated perched aquifer, and integrity of structure if risk to human health/environment is present at depth and removal effort is warranted.
- Contact Water Board regarding issues with PCB sediment impacts alongside Wilmington.
- Run a SplatR report and send to Sarah Samples.
- Provide support for HDOH in entering their RAU (CA800) into RCRAInfo.
- Touch base with Devon regarding results of stained soil found at the 825/835 Industrial Rd site.
- Follow-up with DTSC regarding trenching work where elevated concentrations of various COCs were found in the right-of-way on Industrial and Bransteen Rd.

Thanks!  
Cynthia
